**AMENDMENT**

Sir:

This Amendment is responsive to the Office Action mailed December 4, 2002 ("Office Action"). Applicant provides herewith a copy of the amended portion of the specification and claims entitled "Version With Changes Indicated," which identifies the changes made.

**In the Claims:**

Please replace Claims 2, 9 and 35 with the following.

2. (Amended) A microelectromechanical device according to Claim 1 wherein said at least one metallic structure comprises two metallic structures displaced from each other along an axis of movement of the microactuator.
9. (Amended) A microelectromechanical device according to Claim 6 wherein said microactuator comprises a plurality of arched beams coupled together by the actuator member and extending between the spaced apart supports in substantially parallel alignment.
35. (Amended) A microelectromechanical device comprising:  
a microelectronic substrate;  
a microactuator disposed on said substrate and comprised of a single crystalline material, said microactuator being at least one of a thermally actuated microactuator and an
